

# Zmetrix Introduces - HB Series Variable Pitch Probes for the ST808

High-Bandwidth, variable-pitch probes  
for on-board impedance testing with ST808 TDR's

Bandwidth - 20 GHz  
Pitch Spacing - 0.020 to 0.100 inches (0.5 to 2.54 mm)  
Capable of measuring trace lengths as short as 20mm

**IP-D-100-HB-VP**

Single ended version IP-S-50-HB-VP  
available also

Easy to use  
Low-Profile Adjustment Wheel
